History

Murfree Spring and Sand Spring, also part of Murfree Spring Wetland, have undergone many changes since the founding of Murfreesboro in 1817. The site has held a water treatment plant, an ice house, and a Coca Cola bottling plant. It's been used for water for town and for the railroad and as a swimming hole. The bluff at Sand Spring was quarried out and the rock was used for the foundations of the city's early buildings. Finally, the site was acquired by Murfreesboro in 2000 and is now a protected wetland.

Murfreesboro Greenway System

Murfreesboro Greenway System

The Murfreesboro Greenway System consists of the Stones River, Lytle Creek and Gateway trails. The greenways are available for you to enjoy nature hikes, walking, running, bicycling, or in-line skating along the 15 miles of mostly riverside trails. Small watercraft access points are also available for paddlers to enjoy the Stones River. The Murfreesboro Greenway System connects historical sites, parks, neighborhoods and businesses; it also serves as a conservation corridor to preserve precious natural and cultural resources. Sixteen trailheads provide access to the Murfreesboro Greenway System.

1 **Thompson Lane Trailhead** **2240 N. Thompson Lane**

This trailhead provides access to the historic McFadden Farm property. This was the site of one of the bloodiest engagements in the Battle of Stones River. A 60-car parking area at this northern terminus of the Murfreesboro Greenway System allows users to enter the 12-foot wide asphalt trail for walking, jogging, in-line skating, and bicycling. Access for small watercraft is available at this location.

2 **Broad Street Trailhead** **1921 N.W. Broad St.**

This trailhead, located at the 84 Lumber Company, is an eight-car parking lot providing entry to the greenway. This trailhead provides a water fountain and wayside exhibit. As you travel to the west, there is a wooden overlook that provides a good view of the river.

3 **General Bragg Trailhead** **1450 W. College Street**

Some of the amenities are: a trailhead for the Stones River Greenway, picnic shelter, playground and a dog park. Restrooms are available at the shelter.
1 Picnic Shelter Seats Approx. 45

4 **College Street Trailhead** **1902 W. College St.**

Gateway Island Reservations: 615-890-5333
Adjacent to the General Bragg Trailhead, the College Street Trailhead provides connection and access to the two-mile Gateway Trail and Island. The Island is home to a reception center and gazebo, perfect for weddings and other special events.

5 **Redoubt Brannan Trailhead** **1300 W. College St.**

This trailhead contains 19 parking spaces. Across the street are the remains of an earthen Civil War fortification (Redoubt Brannan) that was part of the larger Fortress Rosecrans. Redoubt Brannan was used by Union troops to guard the Old Nashville Pike and L&N Railroad.

6 **Manson Pike Trailhead** **1208 Searcy St.**

This trailhead offers parking for 15 cars. Also, a boat ramp for small craft and a water fountain are available at this site. A short walk gives the visitor a view of the dam at Ransom's Mill.

7 **Overall Street Trailhead** **410 Overall St.**

This small trailhead has parking for 11 cars. This places you on the Lytle Creek portion of the Murfreesboro Greenway System.

8 **Cannonsburgh Village Trailhead** **312 S. Front St.**

This southernmost trailhead is adjacent to the restored village of Cannonsburgh and is the beginning of the Lytle Creek Trail, which passes through the most urban portion of the greenway.

9 **Fortress Rosecrans Trailhead** **1916 Golf Lane**

This historic trailhead is located just off Golf Lane inside Old Fort Park. As a supply depot, it played an important role in the Union army's advance to Chattanooga. Fortress Rosecrans was abandoned in April 1866.

10 **Old Fort Trailhead** **916 Golf Lane**

Shelter Reservations: 615-890-5333

Located in Old Fort Park, this trailhead is between Kids' Castle playground and the tennis courts. The shelter provides picnic tables and restrooms.

11 **Cason Trailhead** **1100 Cason Trail**

Shelter Reservations: 615-890-5333

This addition to the Murfreesboro Greenway System follows the West Fork of the Stones River with scenic overlooks, an impressive bridge crossing, and more access to the beautiful natural settings within Murfreesboro. The trailhead is also home to the Cason Bark Park.

12 **Barfield Road Trailhead** **2133 Barfield Rd.**

This trailhead, situated about 1.5 miles from Veterans Parkway, offers limited parking yet full access to the beautiful West Fork Stones River and the wildlife that call it home.

13 **Southridge Boulevard Trailhead** **3201 Southridge Blvd.**

Just across the river from the Barfield Road Trailhead, the Southridge Trailhead offers ample parking with scenic bridge access and plenty of wildlife viewing.

14 **Barfield Crescent Park Trailhead** **697 Veterans Pkwy.**

The southernmost end of the Stones River Greenway system is located within Barfield Crescent Park. The park features plenty of parking, pavilions, playgrounds, ball fields and access to the back-country trails and Wilderness Station. This trailhead ends the 10.5 mile journey from Thompson Lane.

15 **North Murfreesboro Greenway**

The **Central Valley Trailhead**, located approximately one-mile from Hwy 231, boasts extended parking spaces suitable for equestrian trailers. The 1.34 mile trail features two overlooks, a switchback ("s" curve) hill and a tree-top canopy offering shade. The **Walter Hill Trailhead** is located a 1/2 mile south of Jefferson Pike on Hwy 231. This trailhead offers parking, picnic tables, and a scenic view of the Walter Hill Dam.

Natural Resources

The Outdoor Murfreesboro Natural Resource team manages approximately 900 acres of natural space within the city's parks. This team works to:

- restore native habitats
- promote biodiversity
- provide resources for home habitat improvement
- encourage individual action through outreach, stewardship, and volunteer engagement.

Murfreesboro Indigenous Plant Project (MIPP)

MIPP promotes the conservation, preservation, and landscape use of native plants of Rutherford County and the Inner Central Basin of Middle Tennessee.

GOALS:

Provide locally-sourced native plant material for natural area/wildlife habitat restoration in Murfreesboro:

- To responsibly collect desirable plants and seeds from local native plant populations.
- To propagate, grow, and maintain a supply of native plant species.

Provide desirable native plants and seeds for:

- Murfreesboro Parks & Rec natural area restoration projects and select landscaping projects.
- Other Murfreesboro City Department sites for select plantings.
- City and neighboring residents for home landscape use.

Restoration

We work at nature's pace to restore habitat on city property that has been degraded, overrun by invasive species, and is notoriously prone to pollution. This effort is rewarded by a healthy, diverse natural system resilient to climate change, pollution, and other human and natural disturbance.
